Introduction to English II

Content of tests

The testing program titled the *Tennessee End of Course Assessment* was established to meet the Tennessee mandate for end of course assessments in Tennessee secondary schools. These tests measure the Tennessee Performance Indicators. Subject areas covered by the testing program include Mathematics, Language Arts, History, and Science.

Test development

For the *Tennessee End of Course Assessment*, a staff of writers—composed of both teachers and professional test developers experienced in each of the content areas—researched and wrote the items. Professional editors and content specialists carefully reviewed all items and test directions for content and accuracy. To provide a large pool of items for final test selection, the test developers created approximately twice as many items as were needed in the final editions of the tests.

After tryout tests were administered, student responses were analyzed. Professional content editors and researchers carefully reviewed items, their data, and test directions for content, suitability, and accuracy before including particular items and test directions in operational tests.

Test administration

Tennessee End of Course Assessments are given to students as they near the end of courses that are included in the program. Tests may be given midyear for block schedules or near the end of the school year.

This test contains 65 multiple-choice questions.

Students will have ample time to read and answer each of the questions. The English II test has been designed to be administered in one session and is not timed.

Tips for Taking the Test

Preparing for the test

- Review this Tennessee End of Course Item Sampler for English II carefully and thoroughly.
- Acquire a Tennessee End of Course Practice Test for English II, and take the test several times.
- Become familiar with the correct way to mark answers on the answer sheet. There is a sample answer sheet in the Practice Test.

Before the test

- Get a good night's sleep. To do your best, you need to be rested.

During the test

- Relax. It is normal to be somewhat nervous before the test. Try to relax and not worry.
- Listen. Listen to and read the test directions carefully. Ask for an explanation of the directions if you do not understand them.
- Plan your time. Do not spend too much time on any one question. If a question seems to take too long, skip it and return to it later. Answer all questions you are sure of first.
- Think. If you are not sure how to answer a question, read it again and try your best to answer the question. Rule out answer choices that you know are incorrect and choose from those that remain.

Directions for Using the Item Sampler

This Item Sampler for English II provides specific information to students and teachers. It contains examples of different item types for each Performance Indicator that may be tested in any given end of course test administration. Performance Indicators have been grouped under Reporting Categories. These Reporting Categories will be used to report information regarding performance on the end of course tests to students, teachers, schools, and systems.

The items in this Item Sampler will not be found in the end of course tests. The number of items in this Item Sampler does not reflect the emphasis of content on the test. In order to identify the emphasis of content, the End of Course Assessment Practice Test for English II should be used. The Practice Test gives a better representation of content emphasis across Reporting Categories and Performance Indicators.

An Answer Key is located on Page 68. Use it to check your answers. Review items that you get wrong.

The passage below is a rough draft. It may contain errors. Read the passage and answer questions 1 through 3.

The New Tent

- 1** Whenever he took us camping, my Uncle Norbert always used an old, green canvas tent that he had bought in a surplus store. The tent was big and bulky, and it had a wooden frame that made it a real chore to carry. It was musty, too, from years of use and storage, and there were a few places where mice had nibbled a bit of the canvas away for nesting material. That tent would let a little light in and even a little rain now and then. It did work, though, and it was easy to set up—once you had carried it where you were planning to pitch it. My friend Mike and I had lugged that thing around all throughout our grade-school years; we set it up in the backyard and, later, along the river at the state park.
- 2** Last year, Mike showed up with a new tent. It looked great; the picture on the box showed its gleaming blue dome, stretched and supported by an interlocking web of fiberglass poles. Mike and I looked forward to unpacking it, setting it up, and sleeping in it on our upcoming camping trip. We felt that, finally, camping had come into the twenty-first century as we tossed the unopened box next to Uncle Norbert’s old tent in the back of the truck.
- 3** When we arrived at the river, Uncle Norbert headed up to the park office to register so we could camp. Mike and I stayed behind to pitch the tent, the gleaming blue modern one, not the one from a previous era. While we were waiting for Uncle Norbert, a couple of squirrels came by looking for food. We talked glibly about how much easier it would be to pitch the new tent instead of dragging that heavy old thing out of the truck. “That way,” Mike said cheerfully, “we can just pitch the tent and get down to the serious job of catching fish.”
- 4** The new tent included a twenty-four-page direction book that we immediately tossed aside. We began assembling the tent by hooking the fiberglass poles together and trying to put them into the proper places in the top of the tent. After about twenty minutes, we thought that consulting the book might be a good idea after all. Nevertheless, the pieces didn’t fit together correctly, and I couldn’t help recalling how my uncle’s tent just snapped into place. I didn’t want to hurt Mike’s feelings, but one look at his face told me that he was thinking the same thing. “I’m ready to go fishing,” he said, as we put the pieces back into the box. “We’ll figure out how to organize it later, when we’re at home.”

- 5** When Uncle Norbert returned, he will see his trusty, musty, green canvas tent standing next to the fire ring. “I thought you were going to pitch Mike’s new tent,” he said. Mike and I looked at each other ruefully. Mike had grabbed his fishing pole from its spot against a tree and began walking toward the river. “We did pitch it,” he said, calling over his shoulder. “We pitched it right back into the truck.”

Wan is preparing for a group oral presentation in her English class on *Letters from the Revolutions*. She is the first speaker and is responsible for the plot overview. The following passage is her rough draft. It may contain errors. Read the passage and answer questions 4 and 5.

Revolutionary Letters

- 1** In *Letters from the Revolutions*, two cousins who exchange letters provide a unique perspective on the American and French revolutions. The novel begins with a letter from a girl in Virginia. She introduces herself to her French cousin. She explains that she has met, for the first time, her uncle from France. He has been sent from his French home to America to fight in the Revolutionary War. The two cousins exchange letters with news about the American Revolution and its effects on their lives these letters comprise the format of the novel. After the war ends, the uncle returns home and shares his new ideas. As the letters continue, an uprising begins in France. The novel ends with a short, terse letter from the French cousin providing a terrifying account of the storming of the Bastille.
- 2** During our presentation, Erin will be discussing the epistolary, or letter, format. Sylvia will discuss history. Then, Joseph will discuss symbolism. First, though, here is Sylvia to talk about the Colonial American setting. Sylvia will also help us understand Revolutionary France.

Laurel’s theater class took a field trip to see a drama. The students in the theater class are reviewing the drama in groups. Laurel is the first speaker and is introducing her group’s review. The following passage is her rough draft. It may contain errors. Read the passage and answer questions 6 through 9.

Painter’s Block – A Review

- 1** Even though the drama, *Painter’s Block*, is a comedy, it is also a serious look at the creative process. The main character, a young artist named Rebecca, struggles with her career, her talent, and her identity.
- 2** Although Rebecca gained success and fame with her first art exhibit, she now finds herself unable to create new projects. She is faced with exploring various, sometimes funny, ways to overcome her “painter’s block” and rediscover her creative genius.
- 3** For our oral presentation, Jonathan will review the actors’ performances in the drama. Lupe will discuss the sets, as well as the staging and directing. DeShawn will describe the author’s writing style. I will conclude our review with a final analysis of the overall success or failure of the drama *Painter’s Block*.

Susan B. Anthony Speech: Women’s Right to Vote

During the early 1800s, women were not allowed to vote. This is a speech that Susan B. Anthony gave after being arrested for voting illegally in the presidential election of 1872.

Friends and fellow citizens: I stand before you tonight under indictment for the alleged crime of having voted at the last presidential election, without having a lawful right to vote. It shall be my work this evening to prove to you that in thus voting, I not only committed no crime, but, instead, simply exercised my citizen’s rights, guaranteed to me and all United States citizens by the National Constitution, beyond the power of any state to deny.

The preamble of the Federal Constitution says:

“We, the people of the United States, in order to form a more perfect union, establish justice, insure domestic tranquility, provide for the common defense, promote the general welfare, and secure the blessings of liberty to ourselves and our posterity, do ordain and establish this Constitution for the United States of America.”

It was we, the people; not we, the white male citizens; nor yet we, the male citizens; but we, the whole people, who formed the Union. And we formed it, not to give the blessings of liberty, but to secure them; not to the half of ourselves and the half of our posterity, but to the whole people—women as well as men. And it is a downright mockery to talk to women of their enjoyment of the blessings of liberty while they are denied the use of the only means of securing them provided by this democratic-republican government—the ballot.

For any state to make gender a qualification that must ever result in the disfranchisement¹ of one entire half of the people, is to pass a bill of attainder, or, an ex post facto law, and is therefore a violation of the supreme law of the land. By it the blessings of liberty are forever withheld from women and their female posterity.

To them this government has no just powers derived from the consent of the governed. To them this government is not a democracy. It is not a republic. It is an odious aristocracy; a hateful oligarchy² of gender; the most hateful aristocracy ever established on the face of the globe; an oligarchy of wealth, where the rich govern the poor. An oligarchy of learning, where the educated govern the ignorant, or even an oligarchy of race, where the Saxon³ rules the African, might be endured; but this oligarchy of gender, which makes father, brothers, husband, sons, the oligarchs over the mother and sisters, the wife and daughters, of every household—which ordains all men sovereigns, all women subjects, carries dissension, discord, and rebellion into every home of the nation.

¹**disfranchisement:** depriving a person the right of citizenship

²**oligarchy:** a form of government in which all power is vested in a few persons

³**Saxon:** a European person

Webster, Worcester, and Bouvier⁴ all define a citizen to be a person in the United States, entitled to vote and hold office.

The only question left to be settled now is: Are women persons? And I hardly believe any of our opponents will have the hardihood to say they are not. Being persons, then, women are citizens; and no state has a right to make any law, or to enforce any old law, that shall abridge their privileges or immunities. Hence, every discrimination against women in the constitutions and laws of the several states is today null and void.

Ryan's debate teacher has asked him to take a position and present an argument on the topic of uniting Tennessee in one time zone. The following passage is Ryan's rough draft. It may contain errors. Read the passage and answer questions 13 through 21.

One Time Zone for All

- 1** Tennessee currently lies in two time zones. Eastern Tennessee adheres to Eastern standard time, and Middle and Western Tennessee adhere to Central standard time. This split in time zones is inefficient; Eastern Tennessee should have Central standard time and unite the state in one time zone.
- 2** Banks and other businesses are throughout the state. Coming together in one time zone will make them more productive. They will be more efficient too. This is because they will have the same business hours. For example Knoxville is currently in the Eastern time zone. If an executive in a Nashville office discovers at 4:00 p.m. that she needs to communicate with someone in Knoxville, she will have to wait until the following day because the office in Knoxville is likely closed. If an executive in a Knoxville office wishes to communicate with someone in Nashville in the early morning hours, he will have to wait until 10:00 a.m. to accommodate the time difference. Thus, two hours of productive work time can be lost simply due to the difference in time zones.
- 3** Another reason to move Eastern Tennessee to the Central time zone is to create early daylight hours. It is true that this part of the state would lose an hour of daylight in the evening. The benefit is that it would gain an hour of daylight in the morning. When children usually are waiting for school buses. Imagine the poor little ones shivering and frightened as they stand in the dark while drivers fly by unaware of the danger. This is an important safety issue, that affects many families.
- 4** Let's make the best and safest use of everybody's time and join all of Tennessee into the Central time zone.

Climbing in the Clouds

- 1** Edmund Percival Hillary was one of the great explorers of the twentieth century. He was born in Auckland, New Zealand, in 1919. He discovered a passion for mountain climbing while he was still in high school and began climbing New Zealand's Southern Alps.
- 2** In January 2008, Sir Edmund Hillary died at the age of 88. Although the physically imposing but personally unassuming Hillary was best known as the young man who climbed to the summit of Mt. Everest in the 1950s, he continued his journeys to far-off places into his senior years. For instance, in his mid-sixties Hillary flew to the North Pole with Neil Armstrong, the first man on the moon. Additionally, Hillary authored many books. However, his most lasting gift, perhaps, was the Sir Edmund Hillary Himalayan Trust. It raised millions of dollars and contributed to schools, hospitals, and many other civic improvements in the Sherpa villages of Nepal.
- 3** Hillary's spirit of exploration was not satisfied. He joined an expedition to Antarctica and reached the South Pole in 1958. His list of activities also included an expedition up the Ganges River to its source in the Himalayas. Sir Edmund Hillary was a fearless adventurer. He went where no man or woman had gone before.
- 4** Like his father Hillary earned his living as a beekeeper. However, he continued to climb mountains. His goal was to climb Mt. Everest, which is the highest mountain in the world. By the early 1950s, several expeditions had attempted to reach the summit of Everest, but all had failed. Then, in 1953, Hillary and a Nepalese climber named Tenzing Norgay became the first two people to reach the top of the world.
- 5** Despite being among the highest echelon of adventurers and known for the legacies he left, Sir Edmund Hillary always modestly referred to himself as a simple beekeeper from New Zealand.

Have you ever wondered where a road name came from or why it goes where it does? What secrets does a road know? Sometimes, if you dig just a little, you will find an amazing story behind the road you travel. In fact, nearly every one of the major roads in America has its own story.
- 2 Believe it or not, some scientists believe the path where a road now lies may have been created by wild animals more than 8,000 years ago! A perfect example of a road with such history is the Natchez Trace Parkway. The history of this road actually began long before the road even existed.
- 3 Native Americans originally began using the trail thousands of years ago because it passed through parts of several Indian nations. By the 1700s, traders also began utilizing the route to travel through the wilderness. Much of the growth of the Natchez Trace was due to boatmen and traders who traveled down the Mississippi River. They sold their trade goods and their boats in New Orleans and then headed east using the Natchez Trace to return home, trading with those they met along the way.
- 4 Passing through an area that was largely wilderness, the road was often dangerous to travel. Settlements were few and far between. Travelers frequently had to defend themselves against wild animals and bandits. Travelers often traveled in large groups accompanying postal workers on their mail delivery routes. Because of this, the postal worker later became the symbol of the Natchez Trace Parkway.
- 5 People were eager for an alternative to traveling on the road. Before long, technology offered another way to traverse great distances. When steamboat travel became popular in the 1800s, travel up and down the river became more common, and the Natchez Trace faded from use. In 1938 work began to construct a parkway that traveled the entire route of the Natchez Trace, and in 2005 work was completed. The road stretches 444 miles from Nashville, Tennessee, to Natchez, Mississippi. Today, you can travel the length of the trail, revisiting the steps of travelers and settlers from hundreds of years ago.

Reuse, repair, recycle—all of that and more happened yesterday at Stanley Park when the local chapter of ReGreenEarth sponsored its twelfth annual “Old Bikes for New Rides.” The event encourages people in the community to bring their old, damaged bikes to the park, where a crew of volunteers works to repair the bikes with recycled parts. Then the almost-like-new bikes are given to people who need them but cannot afford them. “It’s a wonderful way to protect Earth and help people at the same time,” stated Angela Fielder, one of this year’s “repair” volunteers.

MEMORANDUM

To: Management, Office World Super Store
From: Legal Department
Re: Computer Use by Company Employees

The Legal Department was asked to provide a computer-usage policy for company employees. It is requested that management review the policy and provide feedback and/or suggestions before said policy is enforced company-wide.

History

Supervisors have reported widespread personal usage of company computers. The following concerns were addressed:

- security of the company's computer network
- privacy of company records
- legal issues that can result from breaches of both security and privacy
- customer complaints related to employee neglect
- controlling time and place of employee access to computers

Recommendations

The computer-usage policy was created to initiate control of the above issues. In addition, the Legal Department recommends the following:

Employee Training

It is suggested that during initial employee training, employees receive the specific guidelines suggested in the computer-usage policy. New employees should

- be instructed in appropriate computer usage
- be required to sign an agreement stating that they understand company policy and promise to adhere to it
- be given a clear outline of disciplinary action as a result of inappropriate computer usage

Supervisory Presence

It is suggested that during each shift, a supervisory presence be established to monitor store computers. This can be done through

- nonscheduled checks of the computer areas
- data control of all computers through a centralized computer station

Updates and Ongoing Issues

It is suggested that the company remind employees to follow company policy. This can be done with one or more of the following:

- an employee newsletter
- continued employee training
- employee incentives

Conclusion

Computer abuse is an increasingly bothersome issue in the business community. It affects the productivity of employees. It is resulting in problems for both Office World Super Store and for the individuals involved. Clearly, the current situation is unacceptable. Computer misuse could easily lead to a decline in the company's profits and require substantial layoffs of employees. In order to gain and maintain control of this problem, the company is encouraged to take steps now to educate its employees and remind them of their duties while on the job. Personal computer use is a privilege, not a right of employment.

- H** personal attack
- J** slippery slope

GL040316.281

Performance Indicator: Determine whether a given argument employs deductive or inductive reasoning.

35 Which conclusion below shows evidence of deductive reasoning?

- A** One time an employee used store computers to download a harmful virus, so employee computer use is a security threat.
- B** Many customers complained about employees using computers rather than working, so computer misuse was harming the company’s sales.
- C** An employee on a break distracted other employees by using a computer in a public area for private business, so that employee was given a warning.
- D** Several employees left customer sales information visible on computer screens, so those employees were instructed to always close windows with personal information.

36 This memo is based mainly upon the premise that

- F** employees who sign a computer-usage agreement will follow it.
- G** employees require extensive computer training and management supervision.
- H** a computer-usage policy will reduce employee misuse of computers.
- J** all of the store’s computers can be controlled by a centralized station.

GL040318.281

Performance Indicator: Select an additional sentence to add to an argument within a persuasive text.

37 Which statement should be added to the section “Updates and Ongoing Issues” to best strengthen the argument that employee notification would help address computer misuse?

- A** Most office-supply companies distribute an employee newsletter.
- B** The current employees will need to be informed of the new policy.
- C** Employee e-mails are one way to communicate.
- D** Employees kept busy with tasks will have less time for personal computer usage.

GL040319.281

Performance Indicator: Select a rebuttal statement that best refutes the writer’s viewpoint.

38 Which statement gives a contrasting argument to those presented in the memo?

- F** Many companies set limits on their employees’ use of computers at work.
- G** Some companies involve their employees in the development of computer-usage policies.
- H** Employees allowed freedom of computer use at work are happier and more productive.
- J** Prospective employees should inquire about a company’s computer-usage policies during the hiring process.

The Encounter

from *Even Mountains Vanish*
by SueEllen Campbell

Sometime close to midnight, I go canoeing with Audrey, Jim, and Steve. The sun shines low in the northwest, and I can't stop thinking that we'd better hurry back before dark, though I know that dark won't be arriving. The boat Audrey and I share is oddly bent and hard to manage, the current and light breeze are against us, the mosquitoes buzz fiercely around our heads, and we drop slowly behind.

"Caribou!"¹ Audrey exclaims, "Over there, ahead of us, on the right bank."

I balance my paddle and fish for my binoculars, juggle with my glasses, start scanning the area she is pointing to.

"No, not a caribou, wrong shape. Got it. It's a *wolf*! See it?"

To my surprise, I do, my aim and focus suddenly perfect. It is unmistakably a wolf. White and long-legged, it stands right on the edge of the bank some eight feet above the water, not backlit, exactly, but sidelit, and it is looking straight at us. It could have been watching us for a long time, and we might never have known. Its fur glows as if illuminated from within by a thousand candles, as if it stored within itself all the light of the summer for the dark months ahead.

After a long moment, we decide on the risk of generosity, call to Jim and Steve—too quietly for human ears, yet not quietly enough—and watch the wolf turn and disappear.

Lying awake in bed, I think about all the animals I've seen here: caribou and musk oxen, swans and loons, Barren Ground grizzlies and arctic wolves. They're the icons of the Far North, the glamour species. I suppose they might seem to me like clichés, the too familiar emblems of postcards and calendars. But they don't. Each of these animals seems to be what each one truly is, nothing more and nothing less than *real*. However magical they look, their bodies are as material as mine, as strong and as vulnerable. Like me, they live rounded and complex lives.

These creatures, I think, must live their lives almost entirely without regard to us. In this unbounded landscape, they are where they want to be, and nowhere else. And so each appearance represents a momentary encounter between worlds, not a complete communication but an opening for the imagination, a recognition of life on a shared planet, a brief chance to see beyond my own ordinary limits.

It was the purity of their solitude that first captured my attention, I suppose, this and the way these animals seem to inhabit the summer with such intensity. And yet in glimpses so brief, I know I can only

¹caribou: reindeer

be seeing tiny slivers of their lives, a few seconds out of years. What will fill the rest of their days? I muse about this question, going over what I know from reading, trying to imagine some of the rest. After this flash of summer, what then?

The musk oxen will stay on the tundra, gathered into larger groups for warmth and safety, perfectly adapted to the harshest weather. The wolf will remain, too, to hunt alone or with its pack. With a small handful of other creatures—willow and rock ptarmigan,² foxes, wolverines—these arctic creatures will continue their lives uninterrupted, right here.

Slowly my glimpses of these wild animals are taking on weight for me. They are becoming emblems of what they reveal and what they do not show, what in fact they hide from view—the months spent not alone but in families, packs, flocks, herds; the long migratory journeys; the winters much longer than summers, endless nights of cold wind, snow, and darkness, when the full moon might circle the sky while the sun appears only to rise and set again in the same spot.

They hint at the depth and complexity of living in this place. In my imagination these fleeting visions are becoming more and more resonant and suggestive, cryptic³ images of balance and poise, courage and joy. They trace for me stories about how life might be lived with a steady intensity, summer without dread of winter, winter without yearning for summer, a sure and delicate balance of solitude and connection, darkness and brilliance spinning around each other like a pair of caribou, one light and the other dark, in the tight circle of a single whole.

Childhood

by Sharan Strange

Summer brought fireflies in swarms.
They lit our evenings like dreams
we thought we couldn't have.
We caught them in jars, punched
holes, carried them around for days.

Luminous abdomens that when charged
with air turned bright. Imagine!
Mere insects carrying such cargo,
magical caravans flickering beneath
low July skies. We chased them, amazed.

The idea! Those tiny bodies
pulsing phosphorescence.
They made reckless traffic,
signaling, neon flashes forever
into the deepening dusk.

They gave us new faith
in the nasty tonics of childhood,
pungent, murky liquids promising
shining eyes, strong teeth, glowing skin,
and we silently vowed to swallow ever after.

What was the secret of light?
We wanted their brilliance:
small fires hovering,
each tiny explosion
the birth of a new world.

The House of Doors: A Screenplay

Note to the reader: Screenplay format is used in the television and film industries, and includes camera directions, shifts in scene, and the characters' unspoken thoughts in addition to dialogue.

EXTERIOR – FOREST – LATE AFTERNOON

[The camera drifts down from a gray sky through leaves that are ninety shades of brown. WYNN, 17, stocky body and shaggy hair, anxiously treks through wet forest; his restlessness wrestles with the fact that he's not sure where he's going. He stops to get his bearings.]

WYNN: Left? Was it left? *[He shakes his head and goes right. The camera stays in place as WYNN walks away.]*

LATER – DEEPER IN THE FOREST

[WYNN finds what he's seeking: a dilapidated CLUBHOUSE made entirely of old doors, abandoned for years. The forest and the elements have claimed it. No longer a man-made structure, it now has become part of the landscape. WYNN knows he should be happy that he found it again. Instead, he angrily flings rocks at trees. His heart's not in it, and even his aim progressively worsens with his mood.]

GIRL'S VOICE: *[from the forest]* Stop that! Whoa! Hey, whoever you are, stop throwing those rocks!

WYNN: Oh, uh . . . Sorry?

GIRL'S VOICE: *[getting closer]* Not as sorry as you'd be if you had hit me!

WYNN: *[Embarrassment blooms across WYNN's cheeks.]* Jeri? Is that you?

[Camera shifts to a grove of trees, where there is visible movement. JERI comes into the camera angle. JERI is 17, tall, lanky, with long brown hair tucked behind her ears. Camera moves in close on WYNN, who is visibly surprised to see her.]

JERI: Hey, Wynn, how ya been?

[Her rhymed greeting hits WYNN like a ton of bricks, and he slouches his shoulders. JERI ignores the effect her greeting has and walks past him to the clubhouse. She clears away brush, trying to find the way in.]

JERI: The house of doors. The whole door thing. So cool. Such a good idea. Doors for walls.

WYNN: One of my better inspirations.

JERI: Yours? Nuh-uh. I thought of the doors.

WYNN: No, I did. You helped build, but the doors . . . [*He lets the topic go, realizing it isn't worth arguing about childhood things.*] What are you doing here, anyway? Not to be rude, but it's weird.

JERI: [*tries turning various doorknobs*] I saw you cutting through the backyards and wondered where you were going. Then I remembered this place. [*The door opens.*] There we go. [*Ducking low, she goes inside.*]

INTERIOR – THE CLUBHOUSE

[*Light pours through a hole in the roof. Remnants of old homemade furniture are dusty and scattered about. JERI crouches to fit inside.*]

JERI: [*notices that WYNN is now crouching behind her, so she moves to let him in*] Wow, this place shrank. I used to barely touch the ceiling on tiptoe.

WYNN: [*coldly*] Yeah, now it feels like we've fallen down the rabbit hole along with Alice, but this is no Wonderland. Anyway, I came out here to be alone, if you don't mind. [*He leaves abruptly. JERI rushes after him.*]

BACK IN THE CLEARING

JERI: [*grabbing WYNN's arm to stop him*] It's not such a big deal, Wynn.

WYNN: Like you'd know.

JERI: I was there.

WYNN: Yeah, the whole school was there. And half the town! They're not gonna forget who missed that kick.

JERI: Hello? It was forty yards in the rain! Everyone's amazed that the coach even tried it. Besides, you almost made it!

WYNN: *Almost* doesn't count.

JERI: They were state champs last year. They were supposed to beat us, but the game came down to the last play. That's amazing. People are proud.

WYNN: But we still lost because of me. That makes it even worse, Jeri. We should have won! [*He picks up rocks and begins throwing them at the trees again.*]

JERI: It's the third game of the season. There are eight more. It sounds like you have a choice to make—are you going to mope or prepare for the next game? [*She chews her lip, thinking for a moment.*] You know, I feel horrible.

WYNN: Welcome to my world.

JERI: No, not the game. I just feel horrible because you're out here having this nice little pity party for yourself and there aren't even any cookies or punch. [*He looks at her quizzically, then she smiles and he smiles back. Soon they're both laughing out loud.*]

SUNSET

[*The dull gray sky has turned to a glorious palette of reds and oranges, the last rays of the sun casting long shadows across the clearing.*]

WYNN: We'd better get going before it's too dark.

JERI: [*smiles as they start off, then with a quick turn she rushes back to close the door on the clubhouse*] Better to keep it closed up. We might need this place again sometime. [*Their conversation slowly fades as they walk into the darkening forest, away from the camera.*]

WYNN: How come we don't hang out anymore like when we were kids?

JERI: We've got different crowds. You like sports and I like math.

WYNN: I need math help. You could tutor me.

JERI: And what would I get out of this deal?

Kelvin and Melvin waited anxiously as the bus pulled into the parking lot of the amusement park. All the twins had been thinking about was riding the HeartStopper Supercoaster. Kelvin and Melvin loved amusement parks, but what they loved most was riding roller coasters.

Earning trips to amusement parks was no easy task. Their parents considered outings, such as going to amusement parks, a privilege worthy of hard work. Both Kelvin and Melvin had been working hard around the house and in the yard as well as working for neighbors by mowing lawns, walking dogs, and anything else they thought would earn a little money and prove that they were responsible.

The boys could hardly stand still as they waited in line to enter the park with other kids from the local youth center. As they began the long trek to the largest roller coaster in the state, Kelvin and Melvin could see the HeartStopper in the distance. When they finally reached the roller coaster, their hearts stopped as they read the sign posted on the entrance of the ride—"The HeartStopper is closed for maintenance. Sorry for any inconvenience, Park Management."
